

Food Pantry Renovation Fund Sponsorships

Addressing Food Insecurity

The pandemic led to a 300% increase in demand for food overnight. As we move into a post-pandemic world, the economic turmoil caused by the pandemic and rates of inflation have caused the demand for food to remain high.

To ensure the safety of all, the pandemic forced changes to United Community's food distribution operations. Clients could no longer make shopping choices inside the pantry and had to wait outside to receive pre-packaged bags. However, vaccines have alleviated many of the safety concerns, providing the good news that United Community is preparing to welcome clients back to the pantry for a choice market shopping experience. This will allow clients to select the foods they need, create independence, and respect the dignity of the clients served.

Before reopening, United Community needs to expand the pantry market, create a waiting room, and make general renovations to ensure the space is safe, clean, organized, and welcoming.

Become a Food Pantry Renovation Fund Sponsor today to support the reopening of the pantry and provide access to nutritious foods to address food insecurity.

Employee Engagement

As a sponsor, engage your team in giving back through a special volunteer opportunity to support the renovation of the food pantry. Volunteer opportunities include:

- Painting pantry space
- Building new storage shelves
- Moving, sorting, and organizing food
- And more!
