

# Family Achievement Program Event Sponsorships

## Family Achievement Program

The Family Achievement Program is a long-term intervention program designed to help vulnerable families in Fairfax County reach their goals of self-sufficiency through one-on-one coaching. Through this program, United Community connects families who need it most with the resources and opportunities they need to accomplish their financial, educational, and professional goals.

## Sponsorship Details

Every quarter, United Community gathers Family Achievement Program families for a special group event of sharing and celebration. The events feature an array of activities for all ages, from skills development opportunities for adults to fun and games for children, with complimentary food and beverages provided. These gatherings celebrate program participants through the sharing of stories of progress and success and connects clients to one another, helping create an invaluable sense of community among program participants.

We invite you to become a sponsor of a Family Achievement Program Event and be a part of this important community outreach effort.

**22% increase in employment  
through long-term support and  
coaching provided by Family  
Achievement Program**
